

and make the world safer for our children and grandchildren. But CAGW needs your help and they need it today.

Please take a moment right now to return your Survey. And when you do, I am counting on you to also enclose a special contribution to CAGW to help them enlarge this nationwide campaign and counter those who will demand more and more pork-barrel spending.

With a contribution of \$25, \$35, \$50, or \$100 or more to CAGW, you will enable them to expand this National Survey Campaign. The strength of this effort will be in our numbers. CAGW urgently needs your support to expand our numbers and mobilize more Americans.

Specifically, your contribution to CAGW will enable them to contact hundreds of thousands of other opinion leaders like you in communities all across the nation and recruit them to CAGW's campaign. Your contribution will ensure that your Survey supporting the repair of our nation's defenses is not the last, but only the first of hundreds of thousands of such Surveys which CAGW will tabulate and publicize to demonstrate the growing demand for an end to the waste in the Defense Budget.

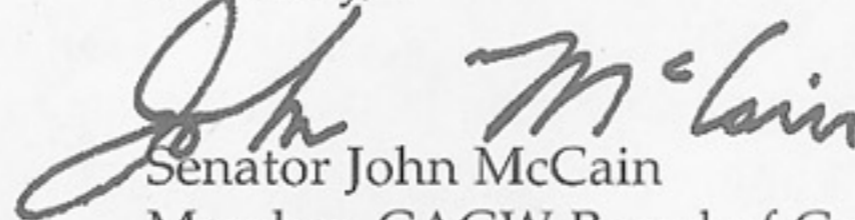

The second and equally important way in which your contribution will help win this battle is by supporting CAGW's efforts to focus a white-hot spotlight in the news media on how Congress' wasting of Defense Budget funds could endanger young Americans and our national security. We must do more than win the war on terrorism. We must fully restore America's strength to make us safer and more secure now and in the future.

I want to urge you as strongly as I can to take a moment now to complete your Survey and return it right away with your largest possible contribution. Your personal support, both your Survey and your contribution, is the key to victory. Please take a moment now to answer your Survey and send your contribution to CAGW.

As powerful as your Survey is, it alone is not enough. CAGW urgently needs a special contribution to support this campaign. I am counting on you to join this battle by sending a contribution of \$25, \$35, \$50, \$75, \$100 or more to CAGW. I know some Americans who are so concerned about how defense cuts made previously and Congress' pork-barrel waste of defense funds are jeopardizing the future safety of their children and grandchildren that they have sent \$100, \$250, or more to CAGW. I hope you will send the largest contribution you can.

If you send \$25, \$35, \$50, \$75 or more to this effort, it would be a major boost to this entire undertaking. I know this hard-hitting campaign by CAGW to marshal indisputable evidence of popular support for repairing America's defenses will work. Please answer and return your Survey with your contribution today.

Sincerely,

Senator John McCain

Member, CAGW Board of Governors

P.S. No one wants to tell a service person on Food Stamps or an airplane mechanic having to remove parts from one fighter in order to repair another that billions of dollars are being diverted from the Defense Budget to pork-barrel spending. Please join this battle by sending your Survey and your largest possible contribution to CAGW. Time is short. Please answer today.
